

I'll Be There

Lisa Peterson

Lyrics: Aleena Gibson

From early in the morning late in the evening
Whatever it is I'll be there when you need me
Now you know where to go
and you're feeling kind of low
It's gonna be alright
It's gonna be alright

When trouble comes knocking on your door
I'll be there a thousand times or more
'Cause that's what
that's what friends are for
When others bring you down
I will always be around
I'll be there
I'll be around
I'll be there
'Cause that's what that's what friends are for

We share everything you know all my secrets
I give you my word and you'll know that I'll keep it
Like a light in the dark
We will never be apart
It's gonna be alright
It's gonna be alright

When trouble comes knocking on your door
I'll be there a thousand times or more
'Cause that's what
that's what friends are for
When others bring you down
I will always be around
I'll be there
I'll be around
I'll be there
'Cause that's what that's what friends are for

For good times for bad times
you know I'll always be there
For rain and for sunshine
you know I'll always be there

And I'll know when I need you
you're gonna be there for me too

I'll be there
I'll be around
I'll be there
'Cause that's what that's what friends are for
I'll be there
