

Simple Things

Lisa Peterson

Simple things,
They mean everything
It's a reached out hand
When you're feeling all alone
Simple things
They're all around
Like a little smile
When you needed it the most

And that's when I remember what this life is all about
Just breath, you'll see

Bring me love songs everyday
Bring me more than I can take
I want happiness galore
oh oh oh gimme some I'll give you more
Let's not focus on the mess
Let's stay happy lets say yes
I want happiness galore
oh oh oh gimme some I'll give you more

Simple things
Could be anything
Like an honest yes
When you think that it's a no
Simple things
Like what tomorrow brings
Like a place to go
When you're locked out in the cold

And I can do whatever when I got you by my side
Just breath, you'll see

Bring me love songs everyday
Bring me more than I can take
I want happiness galore
oh oh oh gimme some I'll give you more
Let's not focus on the mess
Let's stay happy let's say yes
I want happiness galore
oh oh oh gimme some I'll give you more

Simple things,
Could be anything
It's a reached out hand
When you're feeling all alone

Bring me love songs everyday
Bring me more than I can take
I want happiness galore
