

# Soul Riders

**Lisa Peterson**

*Lyrics: Aleena Gibson*

I saw your heart right from the start  
and I knew that you were with me  
Sometimes it's hard life breaks your heart  
but when I fall you always catch me

One for all and all for one  
and the fight has just begun

Together 'til the end  
Soul Riders  
dream fighters  
when the world's asleep we save it all  
Soul Riders  
peace fighters  
for a world where love is all we know  
forever 'til the end

Four perfect friends so tall we stand  
and nobody comes between us  
fight back to back and hand in hand  
We won't stop until it's over

One for all and all for one  
and the fight has just begun

Together 'til the end  
Soul Riders  
dream fighters  
when the world's asleep we save it all  
Soul Riders  
peace fighters  
for a world where love is all we know  
forever 'til the end

We never asked for this  
Be careful what you wish

No one is born to fight  
but some of us are brave enough to try  
Together 'til the end

Soul Riders  
dream fighters  
when the world's asleep we save it all  
Soul Riders  
peace fighters  
for a world where love is all we know  
Together 'til the end  
forever 'til the end  
forever 'til the end
