

Still Got Flair

The Miscreants

Turn up the gain, hit the chord, more sustain,
feel the blasting breeze, drop me to my knees
Much more of this, if you shoot don't miss
Don't you quit, we are a hit

No time to waste, get a grip, get the taste,
of this punk rock life, catch every strife
No need to guess, it's okay, be a mess
Make it sick, every trick

Oh you don't say
But we don't sleep
Catch the heat

Oh ooh oh ooh oh
The sun is out, but we don't care
Oh ooh oh ooh oh
We get loud, still got flair

Huh

Side to the side, throw yourself on the ride,
we're queens of the night, we rule the hype
Lovely at best, we're the ones they call blessed
Ready, set, go, come to the show

Get everyone, don't RSVP
Forget the heels and the tease, we're not in it to please
Wild and free, know that you set the tone
Head up high, that's why you were born

Oh you don't say
But we don't sleep
Catch the heat

Oh ooh oh ooh oh
The sun is out, but we don't care
Oh ooh oh ooh oh
We get loud, still got flair

(Wooh) The sun is out, but we don't care

(Wooh) We get loud, and we don't care

Unrestrained, as the leaders of the game
Where there's chaos there's us, riot and fuzz
Wild and bold, we don't do as we're told

Not even a bit, we are the hit
And we don't sleep

Oh ooh oh ooh oh
The sun is out, but we don't care
Oh ooh oh ooh oh
We get loud, still got flair

(Wooh) The sun is out, we don't care
(Wooh) We get loud, and we don't care
