

The Time Is Now

Lisa Peterson

We don't need swords, don't need knives, need no bullets and no fire
Don't need guns don't need pride and no weapons to take on this
fight
Just need each other, don't know how
Come hell or high water, the time is now

Only love can save the world
It takes courage to love despite it all

The time is now
and we're ready now
Cause the time is now
and we will survive
Because we're sisters we're fighters we're riders of the soul
Time is now and we will survive the time is now

We've made a choice, to pay the prize, for our freedom, we unite
Against evil, against crime, we are ready for anything now
We got each other, no matter what
It takes courage, ready or not

Only love can save the world
It takes courage to love despite it all

The time is now
and we're ready now
Cause The time is now
and we will survive
Because we're sisters we're fighters we're riders of the soul
Time is now and we will survive the time is now
